

# Samuel Hunt

## Profile

I recently graduated with an MDes (Masters of Design) in Product Design from Coventry University. My time there has taught me to think in new ways to overcome difficulties, resolve issues and meet complex design briefs. It also showed me how to work well under pressure, clearly organise and deliver to deadlines, while encouraging my interest in progressing my design skills. I work well as an individual and communicate effectively at all levels to all individuals. Moving forwards I seek a job through which I can launch my career in design and am of the firm belief that if you do what you love, you'll never work a day in your life - and I love Design.

## Job History

### Mitchells and Butlers

The Original Plough, Chelmsford

Jun 21 - current

This role requires me to take customer orders and fulfill them in person. I help create an enjoyable experience, establishing good rapport with customers by being polite and engaging. My work also involved cleaning, making stock checks and maintaining stock levels. I feel the near constant communication with guests and other team members allows building upon skills created in previous job roles.

### Mitchells and Butlers

Miller and Carter Steakhouse, Various

Mar 2017 - Jun 2021

I have worked at two different venues, the first in Lytham St. Annes and the other in Coventry. It has provided me the opportunity to be a part of two great, hard-working teams. As my first customer facing role I have become more aware of the needs of the consumer. My principle duties were to work as a team member, serving guests by making drinks, cocktails and sometimes even hot chocolate. This position has helped me become more confident through continual customer interaction.

### The Queens Hotel, Lytham

Dec 2015 - Mar 2017

As my first job, it was the first time I was part of a team. This role definitely allowed me to develop my skills in working with others. My main responsibilities were washing up and cleaning. However my additional duties were the distribution of tableware, cookware and disposal of kitchen waste.

## Interests

Outside of work I enjoy cooking, reading and spending time with my partner, family and friends. I have learnt to juggle many things including balls, knives, fire and deadlines, which is lots of fun.
